Remarkable Christmas
Present.

Among the curous Christmas presents of this year will be one for a man of national reputation, which has been all year in the making.

Way last January the present was decided upon, and a friend of the prominent gentleman requested the Burrelle Press Clipping Bureau, of New York to watch every paper in America, and to take up every item which appeared concerning the man.

The clipping bureau people followed instructions, and now present the history of one year in the life of this sepscial man.

The history ends just after election, and the 20,642 newapaper items found include everything from a three-line editorial mention of tublicage will instrated stories. These have been mounted on 3,200 great sheets of Irish linen paper and bound into three massawe volumes.

At the head of each item is the name and date of paper clipped from, this information having been put in with a book typewriter. The words thus instructions having been put in with a book typewriter. The words thus instructions have been mounted on the head of each item is the name and date of paper clipped from, this information having been put in with a book typewriter. The words thus instructions have been mounted on the proper proper proper proper propers, sorters, mounters and binders. Every newspaper of importance is represented.

This is merely a specimen of some of the unique orders which get into the Burselle Burezu, for the extent to which clippings are used by individuals and by business concerns seems to be remarkable. There are many people in grivate as well as in public life who need press clippings and don't know it. It might be well for them to look up this man Burrelle, who is said to be so well known that a letter simply addressed "Burrelle, New York," "will reach lim with a delay of the proper propers and don't know its and the propers of the
